Miracles In Motion Performing Arts Centre is a non-profit 501c3 organization trying to teach children self-worth, self-confidence, and self-love through the arts. Our organization opened in March 2017 in a very small shed with about 10 children. Our attendance is rapidly growing with every year. Many of our students rely on sponsorship from local businesses to cover the cost of their studio fees throughout the year. It costs approximately \$750 per student to take classes and perform in 2 recitals per year.

At Miracles in Motion, children learn to build social, emotional, and cognitive skills. Dance improves flexibility, coordination, balance, range of motion, stamina, muscle tone, strength, and posture. But most importantly, dance can build self-worth, self-esteem, and self-respect in children. These are just a few benefits and life skills that dance can do for children. However, the main goal of this organization is to teach children how to be "their own miracle in motion."

Your support would allow our organization to grow so we can reach more of these children in need. Providing them a safe place to become a part of our organization is important to us as they will form strong bonds with each child that attend classes here at MIMPAC as they will form a strong sense of belonging.

We would love to be able to count on your support. Would you like to be a Miracle Maker? If so, we have several ways to become one.

Thank You!

A handwritten signature in blue ink that reads 'Julie Moore'.
